

HELP OUR MILITARY HAVE
THEIR PET TO COME HOME TO!

OPERATION NOBLE FOSTER

* A Department of Defense "America Supports You" Team Member *

Many thousands of requests for the fostering of pets have come in from members of our armed forces, National Guard and Reservists, that are being called to active duty as a result of the War on Terror, including the deployments in Afghanistan and Iraq. Our foster volunteers are proud to have provided so many caring cat foster homes and for making it possible for there to be many very happy reunions, and many have continued to foster for other military pets.

Foster to Keep Love Awaiting!

"There is no better exercise for your heart
than reaching down and helping to lift someone up"

Bernard Meltzer

Foster: to give temporary nurture, care and shelter
Home: individual or family's dwelling - also see, "where the heart is"

On September 23, 2001, Operation Noble Foster officially launched to provide individual foster homes for the cats of the military we expected would be called up. Since then more than 5000 people have volunteered to foster cats and more than 3000 of the military have found fosters for their cats. The Web Sites at the URLs below will tell you what Operation Noble Foster is about. This effort is sponsored by the Cat Fanciers' Association (CFA), the The International Cat Association (TICA), and the American Cat Fancier's Association (ACFA).
